Thanks Deri!

Great interaction and demonstrating the value of her message. Time flew by - very good pace, humour and engagement of entire group. Concrete takeaways to use in positively impacting your environment for better results.

The presentation was Fantastic as always. Although the lighting was terrible on the stage.

Very good. I will work on this.

Excellent topic to open a conf, especially in promoting networking and making connections. She gave everyone "common ground" so everyone can relate.

As facilitators and influences, this is great information to help us improve any and all of our interactions and improve productivity.

Great speaker, very engaging, love the topic! Thank U! :)

Fabulous kick off

So energetic and inspiring in both a personal and professional sense! Took away validations for my positive attitude and learned a few new techniques :)

Deri is a very charismatic speaker and delivered content in a fun and captivating manner. The stats added to the awesome start up presentation and got me primed for the rest of the day.

In one word, AWESOME!

Wonderful content and speaker. Very inspiring

A good way to start off the conference. Very engaging, very interactive. Throughout the 2 day sessions, at odd times I found myself "touching myself" to bring me back to that happy place. And yes....it worked. Turn the brain around and turn it into a positive. I really enjoyed this.

Entertaining and good message

Wonderful speaker, very motivating with a great injection of humour

Good launch for the conference!
